1.X introduced its model which is initiative through three distinct concepts. The original 2009 Frankfurt concept was an R8-based supercar utilizing four electric motors for all-wheel drive. This was followed by the 2010 Detroit concept, a smaller, rear-wheel-drive performance coupe powered by two motors. Finally, the Y served as a front-wheel-drive hybrid, uniquely featuring a Wankel rotary engine as a range-extender. Together, these models demonstrated X's intent to apply electric technology to everything from high-performance sports cars to efficient city vehicles. Identify company X and model Y.

makeameme.org

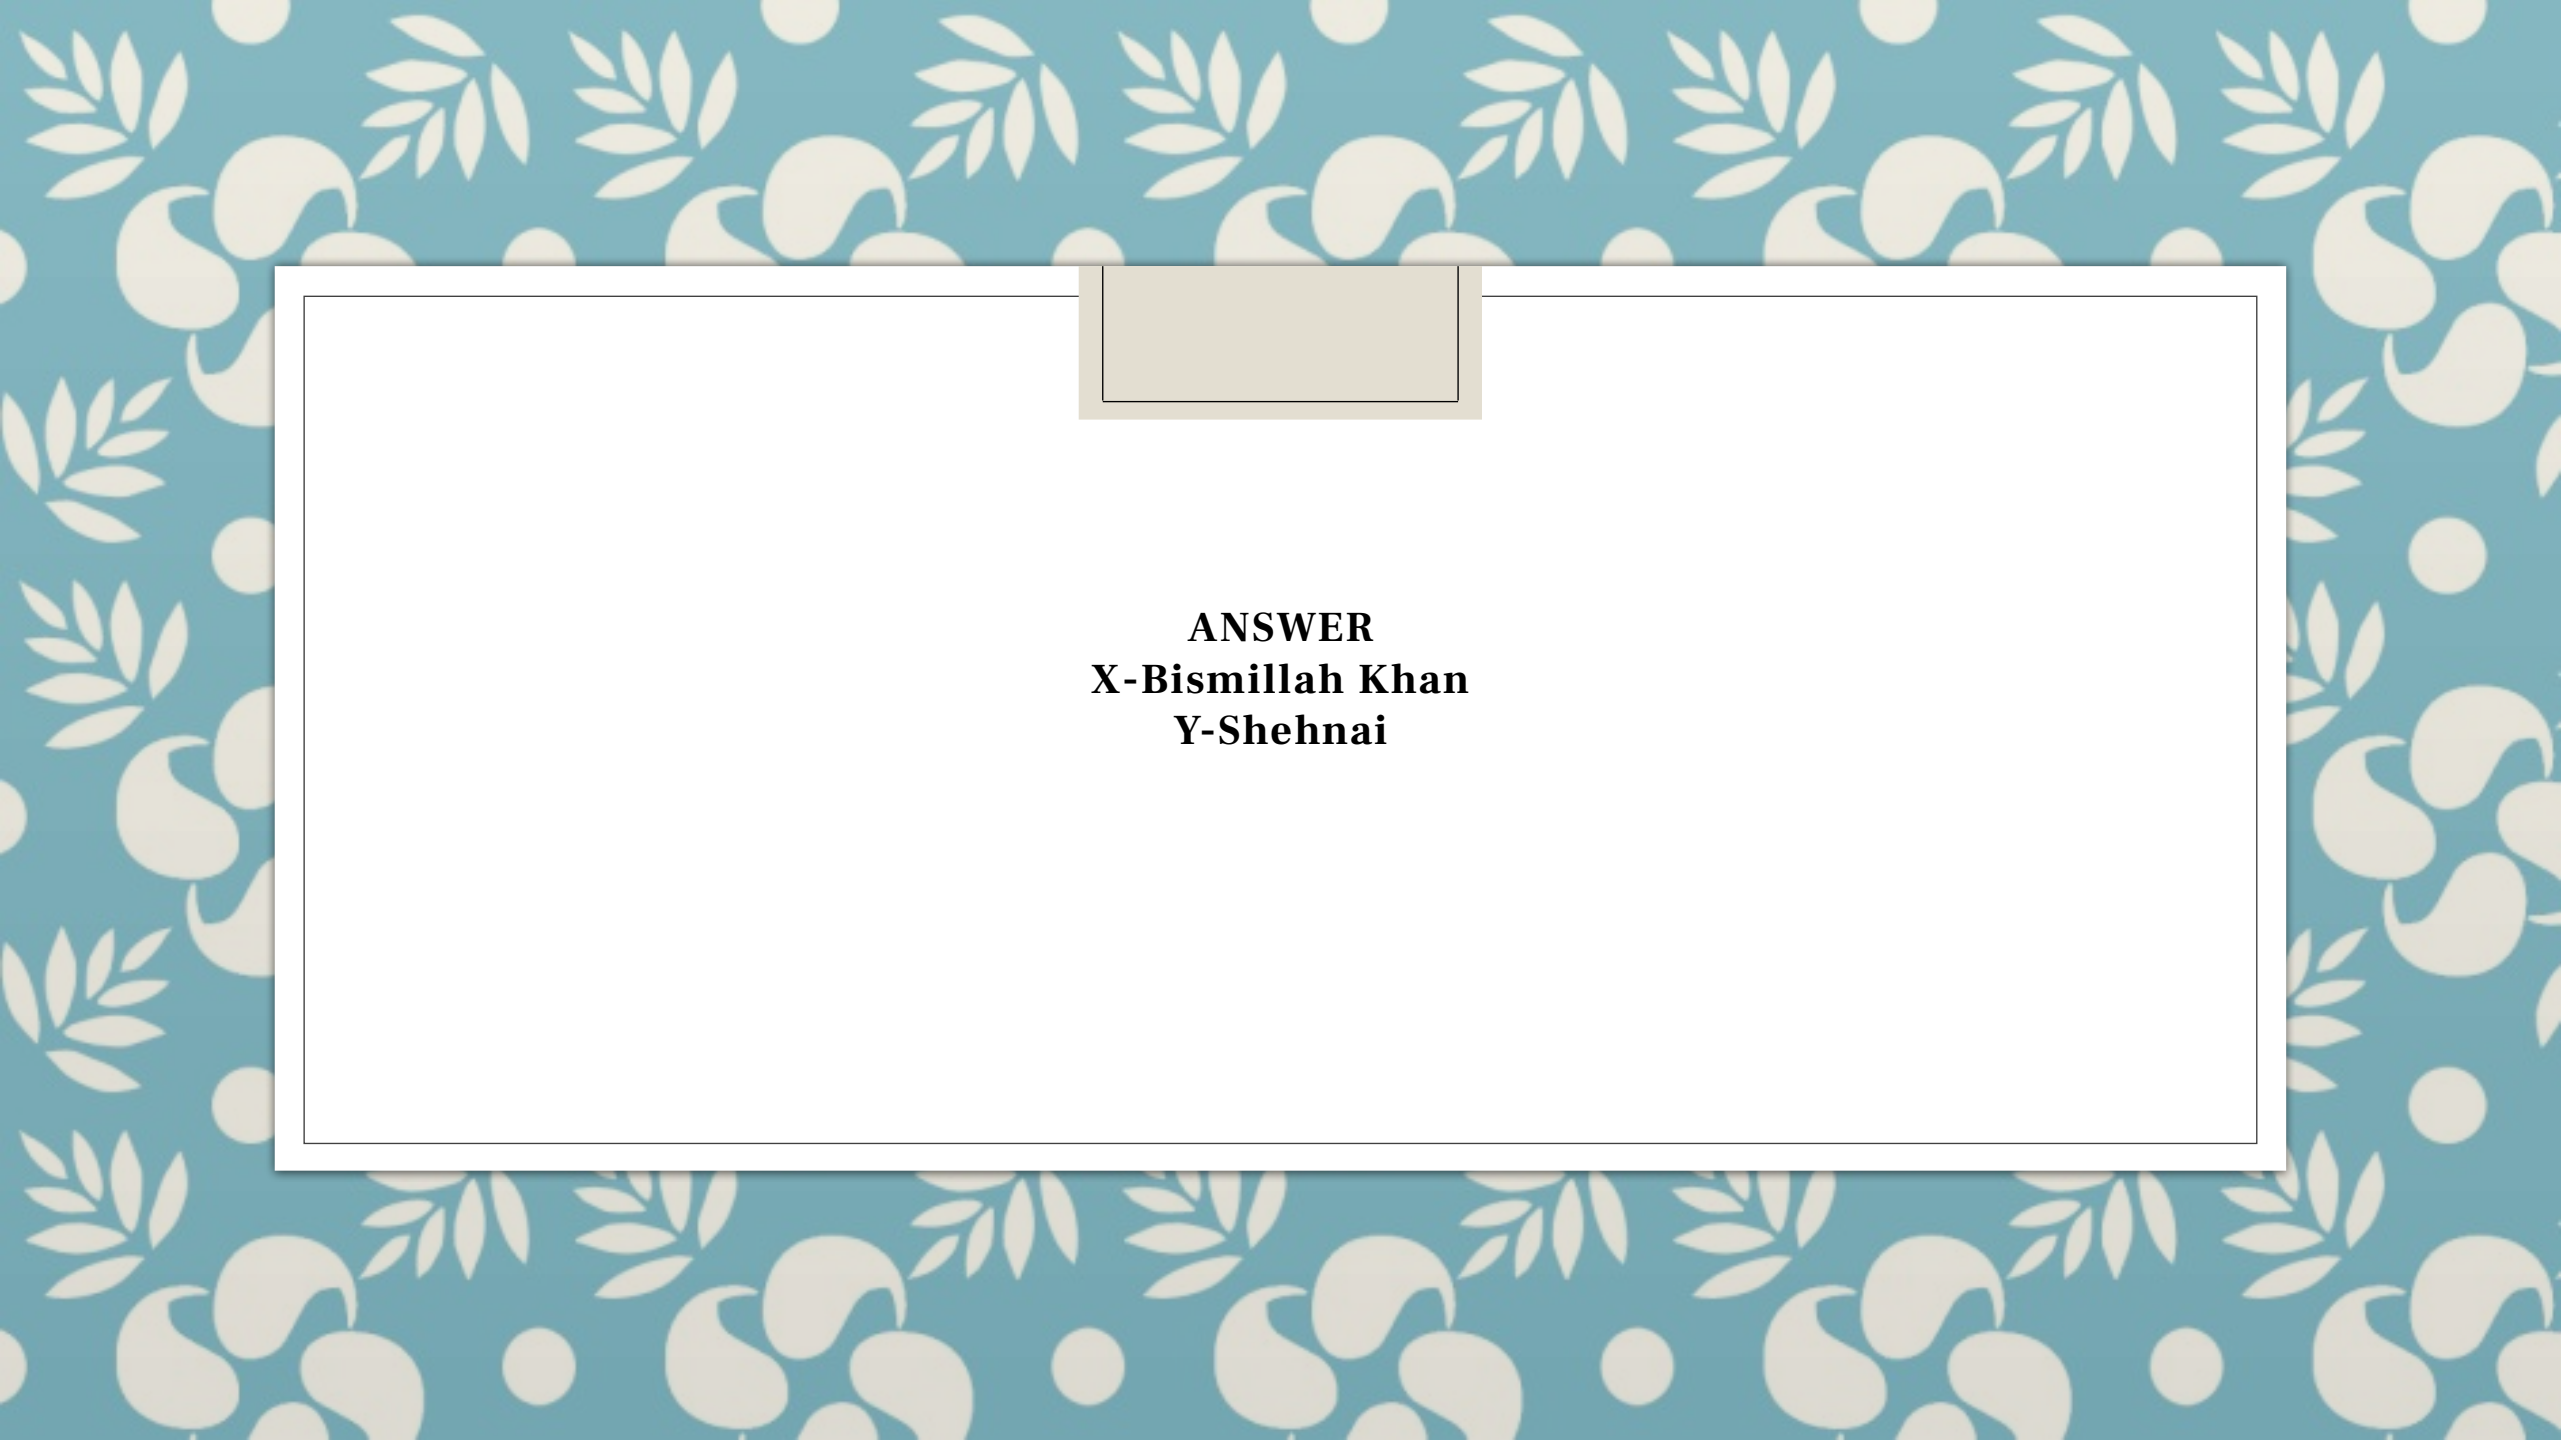

ANSWER
